

Sum of Population density (per km2, 2017) by country

- Understanding population density of different countries using world map
- Understanding the relationship between CO2 emissions and the amount of forested area of land

country

Argentina

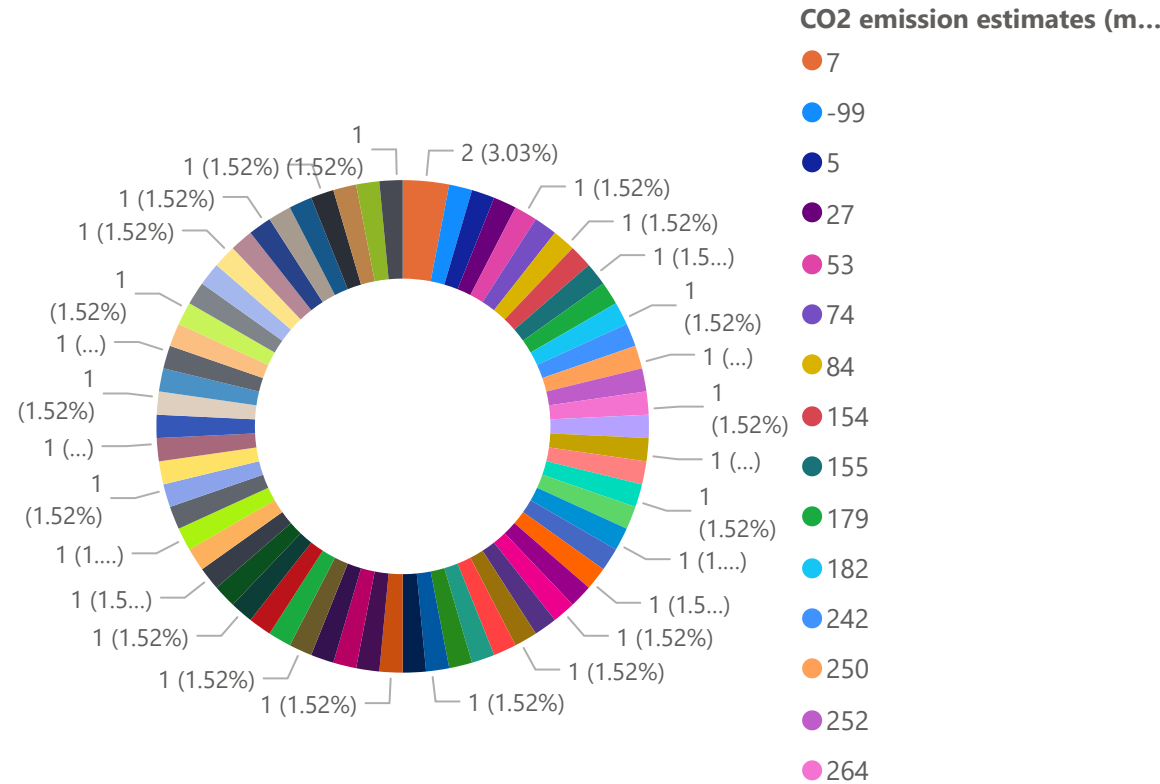

Australia

Austria

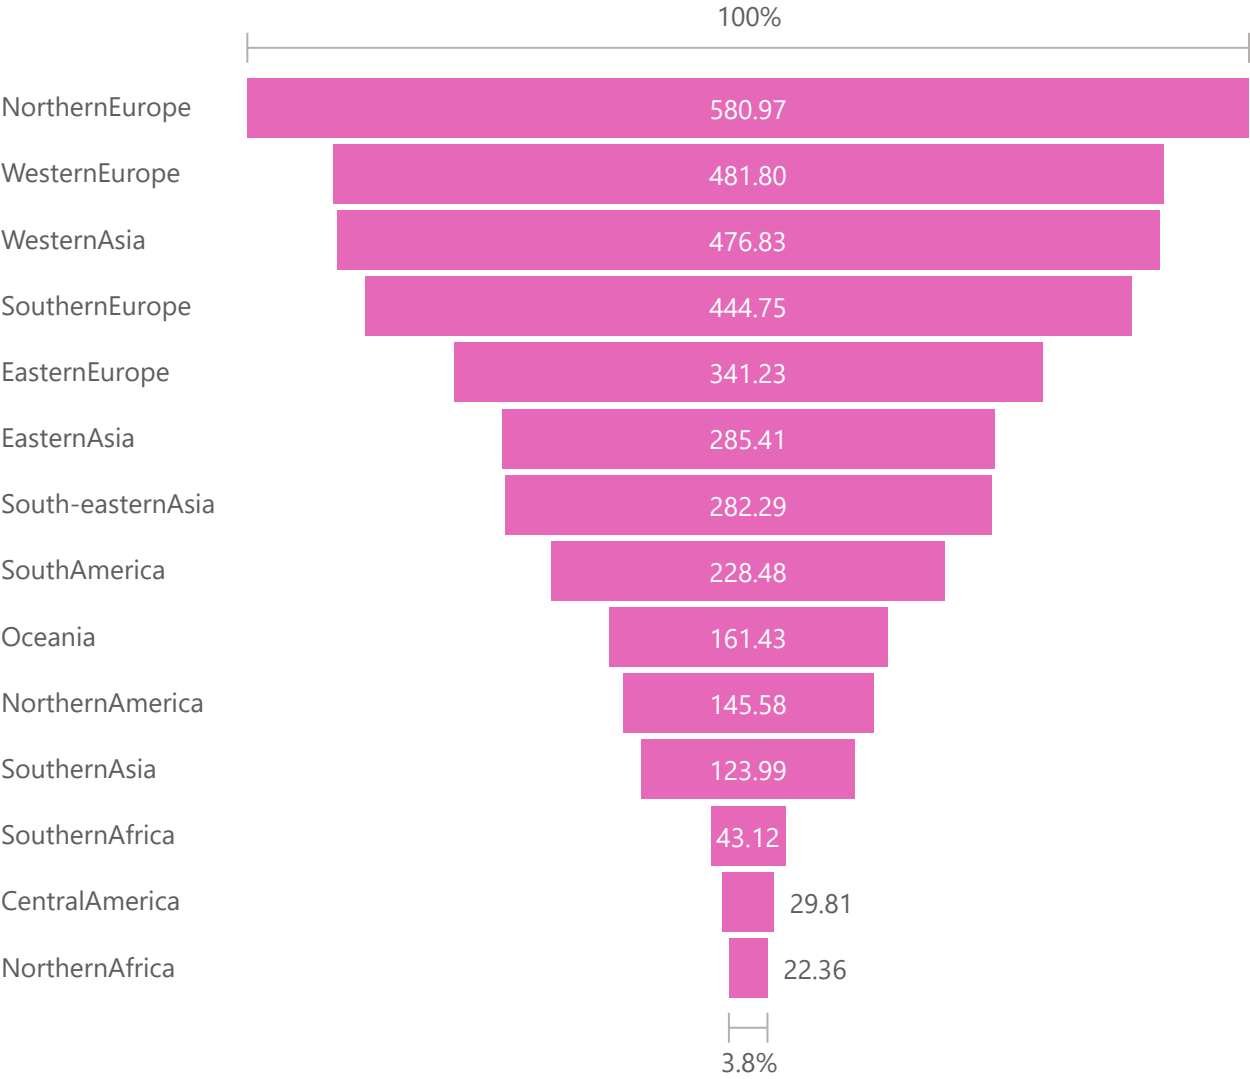

Belarus

Belgium

Count of Forested area (% of land area) by CO2 emission estimates (million tons/tons per capita)

Sum of Cost of Living by Region

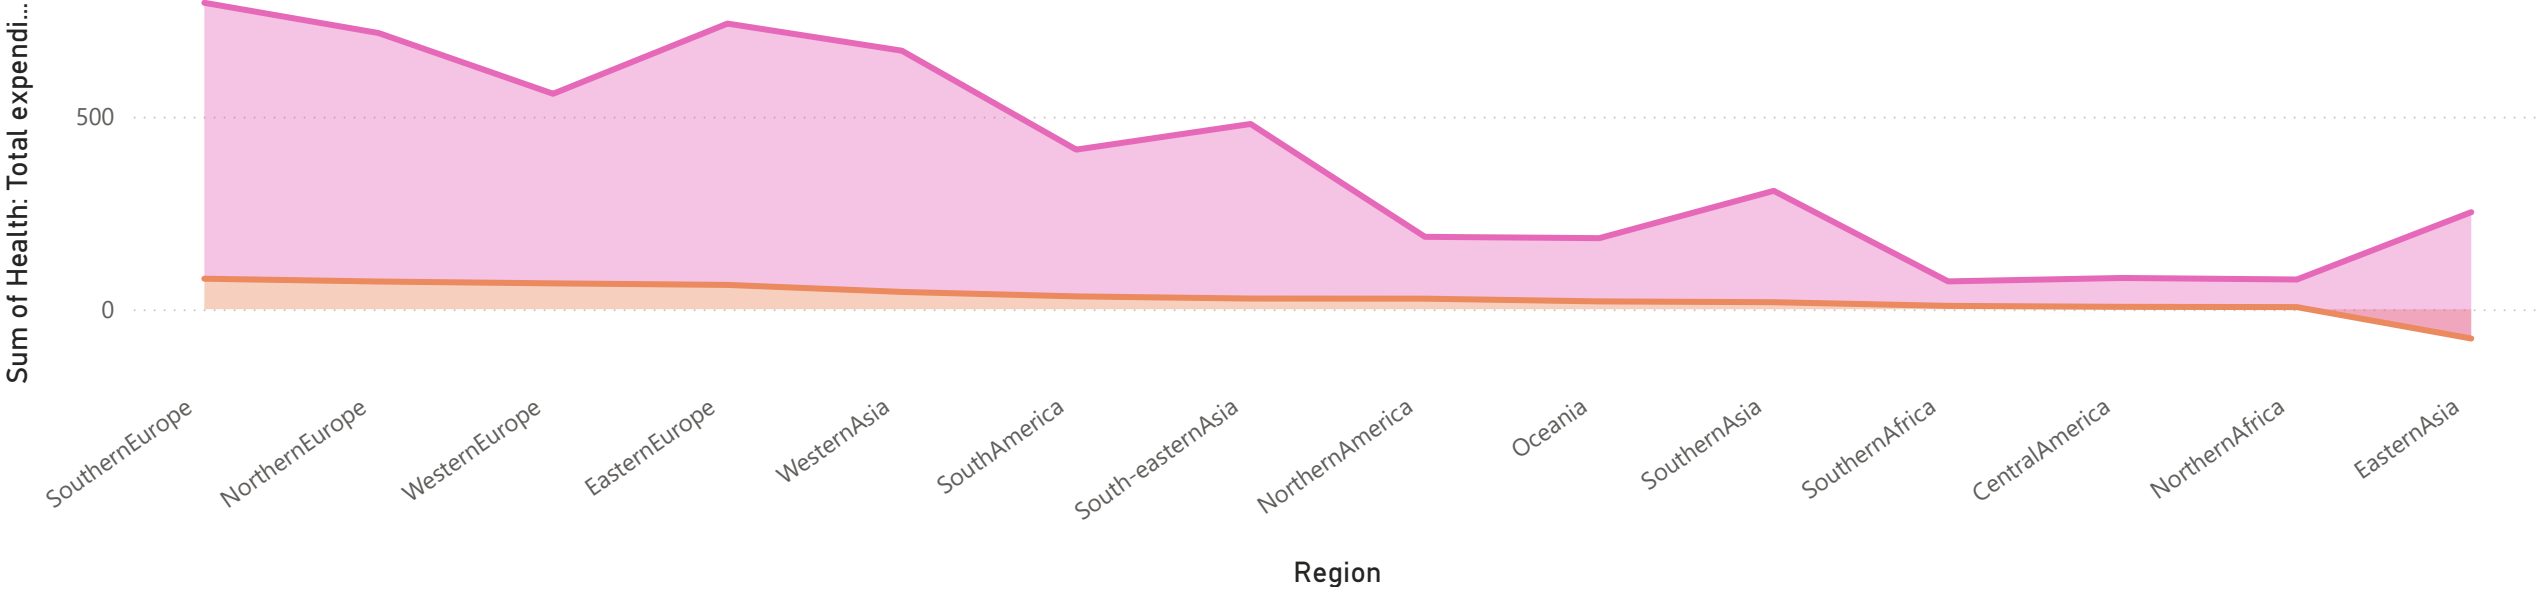

- Understanding the cost of living in each region with the help of funnel graph
- Understanding the Industry economy % by each country

Sum of Economy: Industry (% of GVA) by country

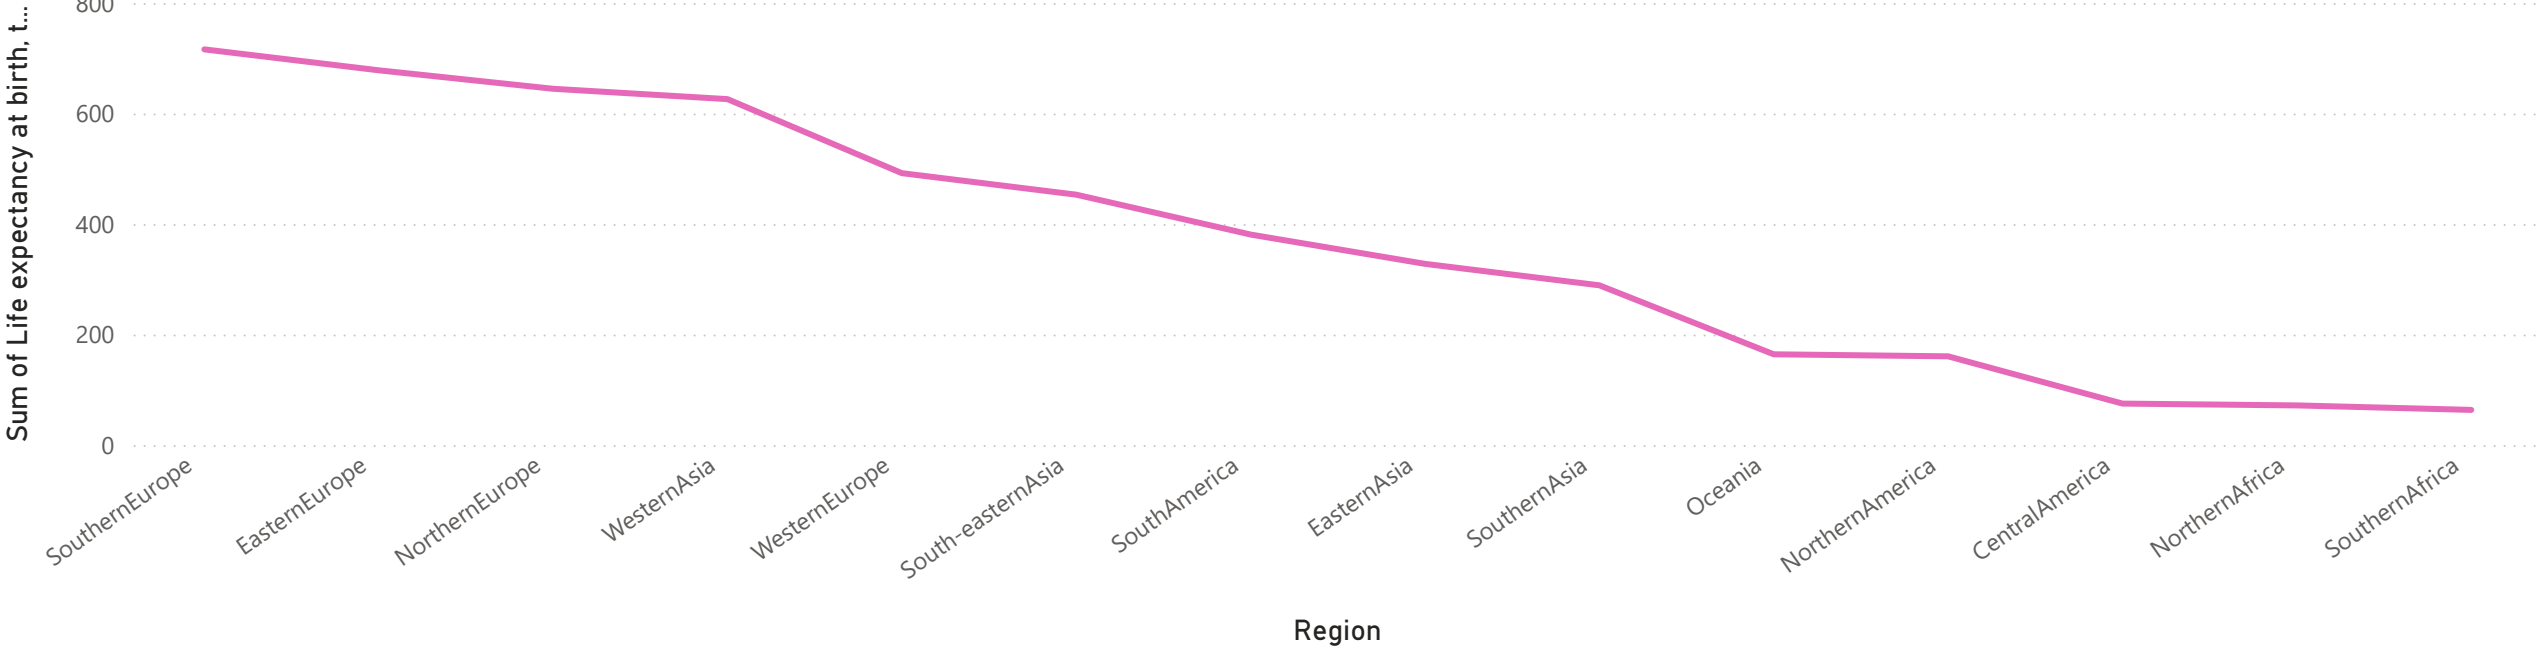

Sum of Health: Total expenditure (% of GDP) and Sum of Life expectancy at birth, total (years) by Region

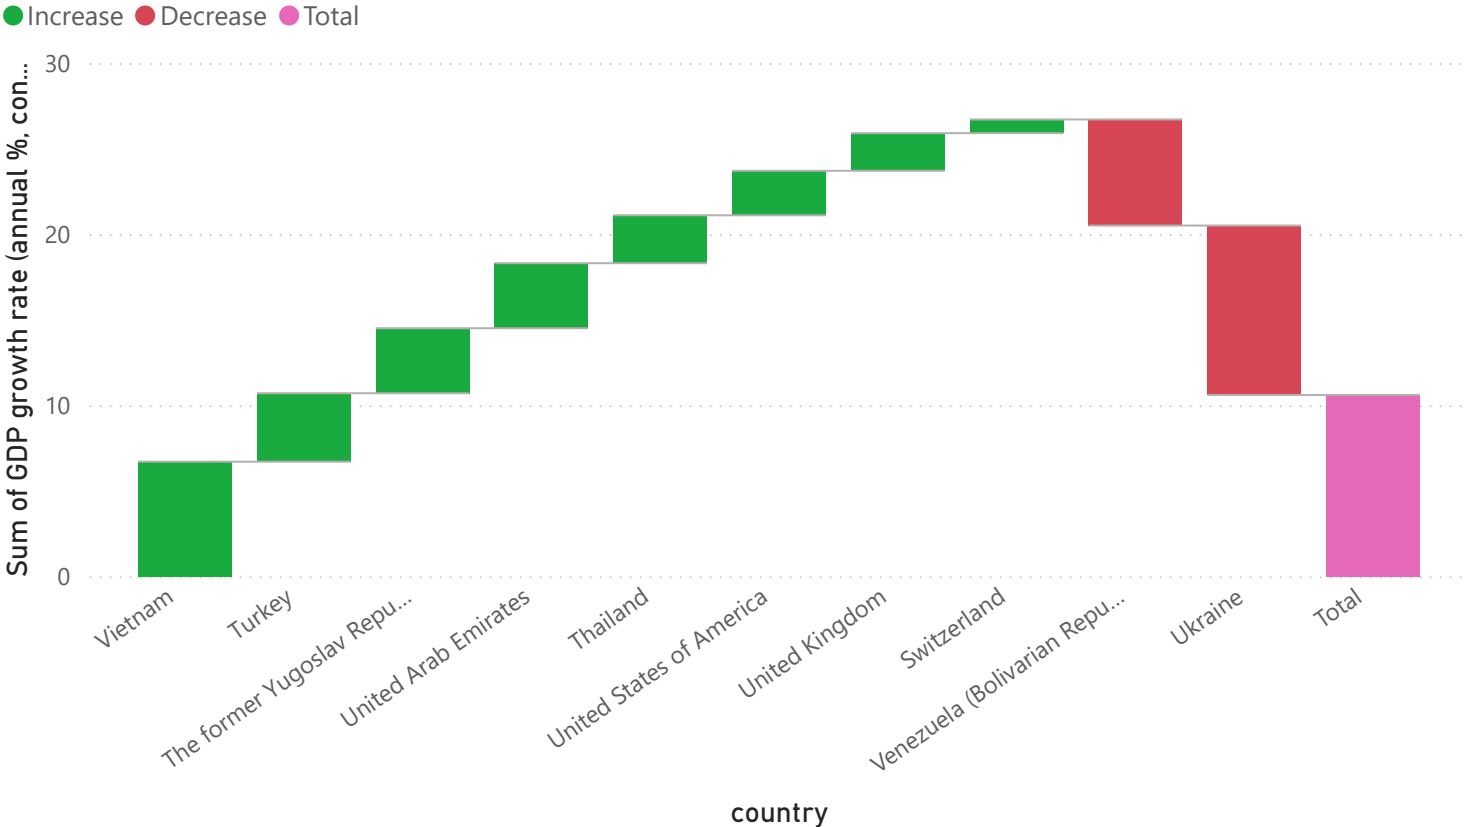

Sum of Health: Total expenditure (% of GDP) Sum of Life expectancy at birth, total (years)

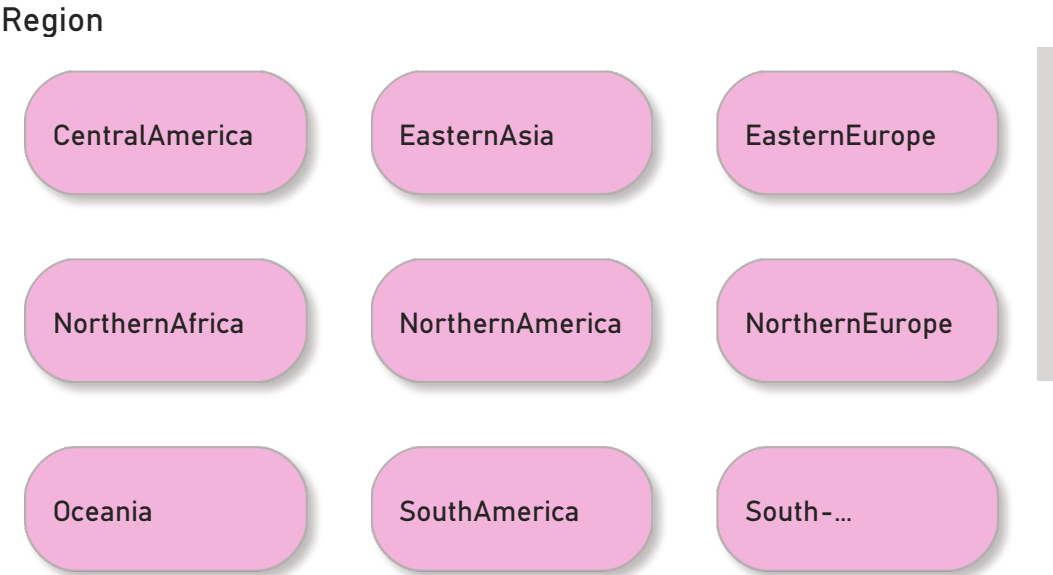

Sum of Life expectancy at birth, total (years) by Region

Sum of GDP growth rate (annual %, const. 2005 prices) by country

- Representing GDP growth of top 10 countries using Waterfall Chart
- Representing Affordability Index by Rent Index using jitter plot

Sum of Affordability Index by Rent Index and Region
